

SAFETY & OCCUPATIONAL HEALTH APPLIED SCIENCES MINOR

A minor in Safety and Occupational Applied Sciences (SOHAS) provides the tools for a student to provide an organization or company with insights and assistance in recognizing safety hazards in the workplace. The series of courses are based on a background in safety regulations, hazard communication, and safety training and are ideal for a student who plans to work in an industrial setting or planning on being an independent contractor or craftsperson. Some typical professions that would benefit from a minor in SOHAS are commercial and creative artists, theater management, chemistry, environmental sciences, physical education and coaching, architecture, and sustainable product design and innovation.
